

# CONSTRUCTION CHEMICALS

*Solutions*

## OUR RANGE OF PRODUCTS

CONCRETE ADMIXTURES | WATERPROOFING & COATING | TILING SOLUTIONS  
EPOXY | SEALANT & ADHESIVE | DECORATIVE CONCRETE | INSULATIONS  
REPAIR AND BONDING AGENTS | FLOORING SOLUTIONS | EPOXY TILE GROUT

## AQUASEAL 100

AQUASEAL 100 is a specially formulated hydrophobic, anti-crack and water resisting, integral powder waterproofing admixture for concrete, mortar and plaster.

**MIXING:** 500g of Aquaseal 100 to 50kg cement  
**DOSAGE:** 500g

### BENEFITS AND ADVANTAGES

- It protects structure against water penetration and water damage for a long time.
- Reduces the occurrence of hairline cracks on plaster

#### Areas of Application

Basement | Foundation | Plastering  
Swimming Pool | Roof gutter

## AQUASEAL 300

Aquaseal 300 is a specially formulated Liquid anti-crack, integral, general waterproofing admixture which reduces the transmission of water through concrete, mortar and screed.

**DOSAGE** 125ml -200ml per 50kg of cement  
**1liter | 5liters | 20liters**

### BENEFITS AND ADVANTAGES

- It helps to increase the compressive strength of concrete
- Protects reinforcement bars against ASR attack and corrosion

#### Areas of Application

Plaster and screed | Foundation  
Swimming pool | Septic tank water  
Retaining structure

## ARMORCOAT 2K

ARMORCOAT-2K is a high performing two component flexible membrane consisting of a powder and a liquid acrylic emulsion component that when mixed together form an acrylic flexible protective and waterproof coatings.

**Coverage : 12 - 15sqm**

### BENEFITS AND ADVANTAGES

- ARMORCOAT-2K can withstand continuously wet and immersed environment
- It has excellent bonding properties to screeds, renders, and tile adhesives.
- Can withstand light foot traffic

#### Areas of Application

Terraces | Balconies | Swimming Pools  
Kitchens | Water Fountains | bathrooms  
Basement walls

## ARMORLATCH

ARMORLATCH is an acrylic polymer admixture that is designed as an integral adhesive for cement, bond coats, mortar and concrete to improve bond strength, chemical resistance and waterproofing properties.

**DOSAGE** 0.5% to 1% of cement content  
**5liters | 20liters**

### BENEFITS AND ADVANTAGES

- Improves the weather resistance of concrete and mortar, by reducing the impact of chloride
- For Screeding and plastering
- Helps to improve the waterproofing properties of concrete and mortar.

#### Areas of Application

Podiums | Terraces | Balconies | Kitchens  
Swimming Pools | Water Fountains  
bathrooms | Basement walls

## ARMOR SUPERLATCH

ARMOR SUPER LATCH is a next generation Styrene acrylic polymer with high solid content latex admixture that is designed as an integral adhesive for cement, bond coats, mortar and concrete to improve bond strength, compressive strength, chemical resistance and waterproofing properties.

**DOSAGE** 0.5% to 1% of cement content  
**5liters | 20liters**

### BENEFITS AND ADVANTAGES

- Improves Flexural and tensile strength of concrete and mortar.
- Improves the weather resistance of concrete and mortar, by reducing the impact of chloride
- Used For screeding and plastering
- Used to bond old concrete to new concrete

#### Areas of Application

Podiums | Terraces | Balconies | Kitchens  
Swimming Pools | Water Fountains  
bathrooms | Basement walls

## ARMORFIX 106

Armorfix 106 is a general purpose tile adhesive for small and medium tiles on floor and wall.

**Color:** Available in gray and white.

**Packaging:** 20kg

**Standard :** C1

### BENEFITS AND ADVANTAGES

- Indoor and outdoor tiling application
- Tiling of walls and floors.
- Internal and external application
- Easy to apply

## ARMORFIX 108

Armorfix 108: is a standard setting polymer modified tile adhesive suitable for ceramics, mosaic tiles, and vitrified tiles on floor and wall.

**Color:** Available in gray and white.

**Packaging:** 20kg

**Standard :** C1T

### BENEFITS AND ADVANTAGES

- Indoor and outdoor tiling application
- Tiling of walls and floors.
- Internal and external application
- For fixing on insulation boards
- Easy to apply

## ARMORFIX 109

Armorfix 109: is a high performing standard setting tile adhesive for medium & large tiles on floor and wall.

**Color:** Available in gray and white.

**Packaging:** 20kg

**Standard :** C1TE

### BENEFITS AND ADVANTAGES

- Polymer modified tile adhesive
- Easy to mix and apply
- Greater workability due to high port life
- Suitable for Medium Large Tile

## ARMORFIX 109 FLEX

Armorfix 109 Flex: is a high strength flexible tile adhesive with water resisting properties suitable for indoor and outdoor application

**Color:** Available in gray and white.

**Packaging:** 20kg

**Standard :** C2T

### BENEFITS AND ADVANTAGES

- High Strength polymer modified adhesive
- Suitable for laying tile wall and floor both internally and Externally
- Tiling on swimming pools
- Non-sag and anti-slip properties with
- high adhesiveness

## ARMOR JOINT PRO

ARMOR JOINT PRO 100 is a high performance, anti-efflorescence, quick setting and water repellent tile grout with excellent waterproofing performance properties.

It is dense and has high abrasion resistance

**Armor Joint Pro 100 Available in multiple colours.**

### BENEFITS AND ADVANTAGES

- Good water-resistant properties
- Colour Consistent
- Chemical resistant
- Fast setting
- Ideal for floors and walls

Internal and external grouting of floors and walls  
Can be used for all types of ceramic tiles, natural stones, mosaic, marbles, glass Swimming pools tiles

## BITUMEN WATERPROOFING

**PRODUCT NAME**  
**ARMORSEAL 200**

Coverage Area : covers 30 sqm  
**ARMORSIL** recommends application  
in 2 -3 coats.

**Application Area**  
foundation | Retaining walls

## POLYURETHANE WATERPROOFING

**PRODUCT NAME**  
**ARMORSEAL 250**

Coverage Area : covers 15 sqm  
**ARMORSIL** recommends application  
in 2 coats.

**Application Area**  
Roof Slab | Roof Gutter | Terraces and Balconies

## CEMENT BASED ARMOR WALL PUTTY

**PRODUCT NAME**  
**ARMOR WALL PUTTY**

**Application Area**  
External and Internal Wall  
Size: 20kg  
Colour : Grey and White

## ALL PURPOSE TILE CLEANER

**PRODUCT NAME**  
**ARMOR TILE CLEANER**

- Ready and Easy to Use
- Removes cementitious residues,
- organic & rust stains
- Ideal for Interior & Exterior
- No Clinging Action

## RESIN BASED CONCRETE MASONRY SEALER

**PRODUCT NAME**  
**ARMORSEALER 60**

- To Seal surface of decorative  
concrete finish
- To seal the surface of natural  
stones, pavers etc
- protection from stain  
and chemical attack

## DECORATIVE AND WATER REPELLENT WALL SCREED

**PRODUCT NAME**  
**ARMORDECO 100**

- High Strength
- Crack free wall
- Faster application
- Excellent coverage
- Decorative and water repellent

**ARMORSIL WEST AFRICA LTD**  
**SUBSIDIARY OF ARMORSIL INT'L USA**
